

ALOK SHAW

Software Engineer / Front End Developer / Web Developer

Kolkata, West Bengal, India | +91 9330265012 | rithikeshh@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Front End Developer with 2+ years of experience building scalable, SEO-friendly web applications with a strong focus on user experience. Proficient in Angular, React, JavaScript (ES6+), CSS3, and modern frontend architecture. Skilled in server-side integration, API development, performance optimization, lazy loading, and responsive UI engineering across smartphones and all screen sizes. Proven track record of improving application efficiency by up to 80% and delivering high-performance, user-focused interfaces.

TECHNICAL SKILLS

Core Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend Frameworks / Libraries: Next.js, Angular, React, jQuery, Rxjs, Stencil (Basic)

Styling: Tailwind CSS, Bootstrap, Material UI, SCSS, CSS Grid, Flexbox, Styled Components, Shadcn/UI

State Management: Redux Toolkit, Zustand, React Query, Context API, Ngxs

Build Tools: Vite, Webpack, Babel, ESLint, Prettier

Performance: Code Splitting, Lazy Loading, Core Web Vitals, Virtualization, Optimization, Intersection Observer

Backend / Server-side: Node.js, Express.js, MongoDB, RESTful APIs, GraphQL, WebSockets, Server-side Rendering, PHP (Intermediate)

Tools & Practice: Git, GitHub, Gitlab, VS Code, Chrome DevTools, npm, Cursor, Figma, AI Tools, Agile Development, Playwright

PROFESSIONAL EXPERIENCE

Darwinbox | Software Development Engineer I Mar 2024 – Present

- Built and scaled enterprise HR modules (Talent Acquisition, Payroll, Onboarding, Talent Intelligence, HR Docs) used by 1000+ organizations.
- Engineered a reusable wrapper web component using Stencil for the Tiptap editor, enabling dynamic data pill referencing and reducing manual JSON path dependency by ~60%, improving scalability of the configuration workflow.
- Developed a drag-and-drop JSON tree interface in React that simplified complex syntax-based workflows and significantly improved user experience for non-technical users.
- Optimized Offer Letter page performance by refactoring API integration logic and lazy loading, improving efficiency by ~60% and enhancing responsiveness.
- Implemented lazy loading in Angular using Intersection Observer to load data based on scroll behavior, reducing initial page load time and improving rendering performance across all devices including smartphones.
- Collaborated with designers, backend engineers, product managers, QA, and security teams in Agile sprints — reducing feature delivery timelines by 25% through proactive communication and end-to-end ownership.

KEY PROJECTS

Struct UI - Custom UI Component Library | <https://ui-struct.vercel.app/>

- Built a reusable UI component library, improving development efficiency and ensuring consistent design across applications.
- Focused on performance, theming using Tailwind CSS, Shadcn, and animations with Motion.

MakeMyTrip Clone - Booking Platform | <https://rithikesh-make-my-trip-react-clone.vercel.app/>

- Developed a scalable booking platform using React, Axios, and Material UI with authentication, server-side API integration, and responsive design for smartphones and desktops.

Blogs Backend API – Blog Endpoints | <https://github.com/Rithikeshh/blog-s-backend>

- Developed RESTful server-side APIs using Node.js, Express.js, and MongoDB supporting authentication, scalability, and full CRUD operations.
- Features: Blog posting, likes, comments, sign up, login, and authentication.

EDUCATION

University of Calcutta | Bachelor of Science | 2023 | CGPA: 7.52 / 10
